Building activities Zuidasdok during
Easter weekend

Page 1 of 3

Dear resident, business owner or other interested party,

We would like to inform you about the building activities during the long Easter weekend. The activities are part of Zuidasdok, which involves the widening and tunneling of the A10 Zuid and the complete renewal of Amsterdam Zuid station.

Where and when will the activities take place?

During the Easter weekend, building consortium ZuidPlus will be working directly to the west of Amsterdam Zuid station, on the embankment and between the tracks. The work will be done from Thursday 1 April 8:00 pm until Tuesday 6 April 5:00 am. To minimize the disruption to traffic, work will continue 24 hours per day.

What kind of activities are carried out?

The activities relate to the Brittenpassage, the future second passageway underneath Amsterdam Zuid. The roof of the passageway consists of 7 sections each with a length of approximately 70 meters. One section was put into its place at the end of 2019. The second and third sections will follow in August 2021. One of things we will do during the four days around Easter is to lay the foundations for these new roof sections.

Visitors' address

Strawinskylaan 59

1077 XW Amsterdam

PO Box 79092

1070 NC Amsterdam

Telephone +31 800 5065

Directions can be found at www.zuidas.nl.

What do the activities mean for you?

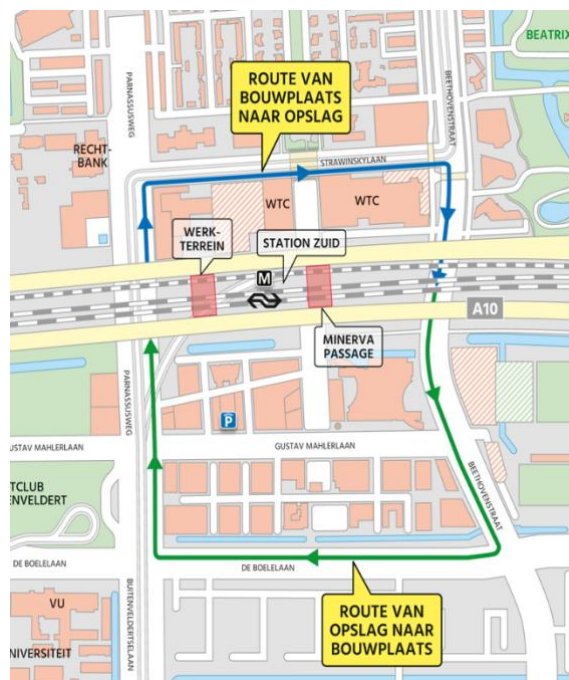

Supply of materials

There is no storage space on the building site between the tracks. All the required materials have to be delivered and removed by road. For example, this includes sections of track, ballast material, temporary station platforms, sand, concrete and reinforcement cages. Supply routes are planned via the eastern part of Parnassusweg, Strawinskylaan, Beethovenstraat and De Boelelaan.

The routes used by supply trucks is shown on the map.

Traffic controllers will ensure the work traffic flows smoothly. For the duration of the activities, a road sweeping vehicle will be deployed to keep the road clean.

In the map: Werkterrein → Building site. Route from building site to storage; Route from storage to building site

Parnassusweg closed

Because of the work traffic, we will have to close Parnassusweg in the direction of the city centre for cars, cyclists and pedestrians. The closure only affects the part between Mahlerlaan and Strawinskylaan, for the direction south to north. The closure will last from Thursday 1 April 10:00 pm until Tuesday 6 April 5:00 am. Cars will be diverted via De Boelelaan, Beethovenstraat and Strawinskylaan. Cyclists and pedestrians will be directed to the western side of Parnassusweg. Eduard van Beinumstraat will remain open for traffic.

Fewer metro's and trains

The A10 Zuid will remain open as normal. You can also keep using the metro and train, but these will run on an adjusted timetable on Friday, Saturday, Sunday and Monday (consult the NS travel planner, gvb.nl or 9292.nl). Access to the station from Parnassusweg will not be possible on these days. If you have parked your bicycle in the bicycle racks, then the traffic controllers will guide you there.

Noise pollution

Noise pollution will be minimal and the noise levels will fall within legal limits. However, if the curfew is still in place around Easter, then it may be more quiet than normal and you may hear the activities.

If you have any questions or complaints, then you can contact Amsterdam Zuidas Information Centre 24/7 via 0800-5065 and contact@zuidas.nl. For the most up to date news, also check out zuidasdok.nl, Facebook (facebook.com/zuidas) and Twitter ([@zuidasamsterdam](https://twitter.com/zuidasamsterdam)).

Yours sincerely,

Paul Kamermans
Stakeholder Manager Zuidasdok

Zuidasdok is a co-operation between Rijkswaterstaat (The Directorate-General for Public Works and Water Management), ProRail and the City of Amsterdam. Zuidasdok is being realised by the building consortium ZuidPlus.
