To the residents and business owners in the Amsterdam Zuid station area

An English version of this letter is available at www.zuidasdok.nl

Datum	Dear resident, business owner or interested party,
Ons kenmerk	We would like to inform you about building activities taking place on 20, 21 and 22 August. The activities take place in the context of Zuidasdok, which includes the broadening and tunnelling of the A10 Zuid as well as the complete redevelopment of Amsterdam Zuid railway station.

Building activities Zuidasdok on 20, 21 and 22 August	Where and when will the activities take place? On 20, 21 and 22 August, the building consortium ZuidPlus will be working on the embankment, and also in between the tracks, directly to the west of Amsterdam Zuid railway station. The work will commence on the night of Thursday 19/ Friday 20 August and will be completed by the early morning of 23 August. In order to minimise traffic disruption, the work will continue for 24 hours per day.

Pagina 1 van 3

What kind of work will be done?

These activities relate to the construction of the future second passageway underneath Amsterdam Zuid station, the Brittenpassage. The roof of this passageway consists of 7 sections, each measuring approximately 70 metres in length. We already pushed one section into its place in 2019. The second and third sections will follow in August 2021.

How will the activities affect you?

Noise

The activities to be carried out in August are similar to what was done before. We can therefore confidently say that the noise pollution will be minimal, and that the noise levels will remain well below what is allowed according to the relevant regulations.

Een routebeschrijving vindt u op www.zuidas.nl.

Transport

There is no storage room for materials on the construction site between the tracks. Everything needs to be supplied and removed by road. This includes, for example, sections of track, ballast materials, temporary platforms and sand. Construction traffic will be routed along the eastern side of Parnassusweg, Strawinskyiaan, Beethovenstraat and De Boelelaan. The truck movements are illustrated in the map included here. Traffic controllers will co-ordinate the orderly arrival and departure of these trucks. And for the entire duration of the activities, a road sweeper will keep things nice and tidy.

Parnassusweg closure

Because of the construction traffic, we are forced to close Parnassusweg in the direction of the city centre, for cars, bicycles and pedestrians. The closure only applies to the section between Mahlerlaan and Strawinskyiaan, in the direction south to north. The closure starts on Thursday 19 August at 10 pm and lasts until Monday 23 August 5 am. Cars will be diverted via De Boelelaan, Beethovenstraat and Strawinskyiaan. Cyclists and pedestrians will be routed via the western side of Parnassusweg. Eduard van Beinumstraat will remain accessible.

Fewer metros and trains

The A10 Zuid will remain open for cars. You can also keep using the metros and trains, but from Thursday 19 August 8 pm until Monday 23 August 5 am the operating frequency will be reduced (consult NS travel planner, gvb.nl or 9292.nl). The station entrance on Parnassusweg will be closed on these days. If your bicycle is parked in the racks, then a traffic controller will take you to it.

See it all happen on 21 August

On Saturday 21 August, you can take a look behind the scenes in person, from a (closed) railway platform. For this is also the day that we will be pushing two roof sections for the new station passageway into their final positions. Keep an eye on our website for further information and to find out how to sign up for this. Are you unable to join us in person? Then you can still follow the activities via a live webcam on www.zuidasdok.nl.

More information?

If you have any questions or complaints, then you can reach the Amsterdam Zuidas Information Centre 24/7, via 0800-5065 or contact@zuidas.nl. For the latest news, you can also keep in touch via zuidasdok.nl, Facebook (facebook.com/zuidas) and Twitter ([@zuidasamsterdam](https://twitter.com/zuidasamsterdam)).

Yours sincerely,

Paul Kamermans
Stakeholder Manager Zuidasdok

Zuidasdok is a co-operation between Rijkswaterstaat, ProRail and the City of Amsterdam. Building consortium ZuidPlus is responsible for the execution.
