

Retouradres: Postbus 79092, 1070 NC Amsterdam  
Datum: 20 March 2024  
Onderwerp: **Building works Parnassusweg April to July**

Dear resident, business owner or other interested party,

We would like to inform you about the building activities we are carrying out for the redevelopment of Amsterdam Zuid station and the construction of the additional passageway for pedestrians: the Brittenpassage. These activities are part of Zuidasdok, which involves the widening and tunnelling of the A10 Zuid and the complete redevelopment of Amsterdam Zuid station.

From early April up until early July, building consortium Nieuw-Zuid will be working near the metro viaducts across Parnassusweg, in preparation for the construction of supporting pillars for an additional metro viaduct, to be used by metro lines 50 and 51 in the direction of Isolatorweg.

#### **Parnassusweg partly closed for two nights in early April**

During the nights from 3 to 4 April and 4 to 5 April, Parnassusweg will be closed between 10:00 pm and 6:00 am near Amsterdam Zuid station, for traffic going in a northerly direction (towards the city centre). We will move the traffic lane in the direction of the tram tracks, so that cars can pass by the building site. The maximum speed will be reduced to 30 km/h.

#### **Opening and closure of cycle/footpaths**

From Monday 29 April up to mid-July, the cycle/footpath on the east side (i.e. where the station access is located) will be closed. The cycle/footpath on the west side of Parnassusweg will be re-opened in both directions. Alternative routes for cyclists and pedestrians will be signposted.

#### **Parnassusweg closed in mid-May and June due to building works**

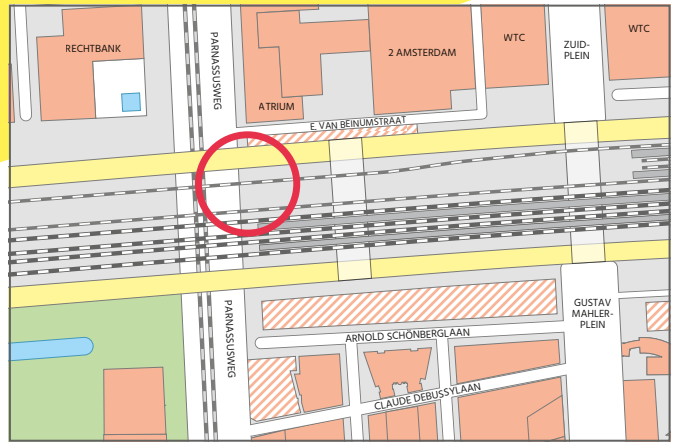

On working days between 3 and 8 May, we will be inserting foundation piles into the ground at the building site. During the nights of 30 – 31 May and 31 May – 1 June reinforcement cages will be integrated into the foundation. This will not require any road closures, but the activities will probably not go unnoticed. From 13 May 8:00 pm to 15 May 6:00 am we will be inserting dam walls into the ground, using the best available low-noise technology. From 19 June 10:00 pm to 21 June 6:00 am we will be removing these dam walls again. During this work on the dam walls, Parnassusweg will be closed twice in its northerly direction (into the city), for two nights and two days each time. Despite our best efforts to minimise inconvenience, these building activities may generate some noise pollution. Please note: the dates mentioned above may have to change. You can stay informed via Zuidasdok.nl and our social media posts. Or request a personal travel advice from Ask&GO, via WhatsApp: 085-0659091.

#### **More information**

You can follow the building works at Amsterdam Zuid station from your home, via three webcams. These can be found on zuidasdok.nl. You can also find more information about the building works there. Do you have any questions relating to this letter? Then you can reach us 24/7 via [www.zuidas.nl/contact](http://www.zuidas.nl/contact) or by telephone: 0800-5065. The Information Centre Zuidas-Zuidasdok, in the WTC building (59 Strawinskylaan), is also open from Monday to Thursday between 10:00 am and 4:00 pm. Via our website, you can register for our newsletter and sign up for the monthly guided tours.

Kind regards,  
Paul Kamermans, Stakeholder Manager Zuidasdok

program  
**zuidas dok** works on  
**Parnassusweg**
