Amsterdam, 22 June 2022
Zuidasdok Building Works
16-23 July
22 July - 3 August

To the residents and business owners in the Amsterdam Zuid station area

Dear resident, business owner or other interested party,

We would like to inform you of the construction activities that will be taking place between Saturday 16 July and Wednesday 3 August. These works are part of the Zuidasdok project, which entails the widening and tunnelling of the A10 Zuid and the complete redevelopment of the Amsterdam Zuid station area. A walk-in consultation session has been organised on 5 July to update you on all these activities.

16 July (1:00 am) till 23 July (5:00 am)

During this period, we will remove the metro track for line 52 and demolish the associated platform. Using sand, we will then elevate both the track and the platform, before rebuilding them both at this new level. We are doing this now, so that at a later stage, we can make the current passageway underneath the station (Minervapassage) both higher and wider.

22 July (10:00 pm) to 3 August (5:00 am)

During this period, we will be working on the Brittenpassage, which will, in the future, be the second passageway. The work will take place on the south side of Amsterdam Zuid station, beneath the southern lanes of the A10. We will remove the tarmac and tracks, before excavating the soil over a length of 100 metres to a depth of 6 metres at most. For the foundation, we will screw 135 tubular piles into the ground. Over a period of four days from Sunday 24 July, we will be placing 80 sheet piles into the ground by means of vibration. The tubular piles will be fortified by steel reinforcement cages, which will be filled with concrete. After the concrete has set, we will tidy everything up so that on 3 August, it will look like nothing has happened.

Walk-in consultation sessions 5 July

On the 5th of July, you can talk to our experts in the Amsterdam Zuidas Information Centre (central hall WTC, Strawinskylaan 59, Amsterdam). You don't need to register beforehand.

Session 1: 5 July 12:00 noon until 1:30 pm

Session 2: 5 July 5:00 pm until 7:00 pm

How will the construction activities affect you?

If you live or work in the immediate area, then you may be inconvenienced in the following ways.

16 July (1:00 am) to 23 July (5:00 am)

Noise

Strawinskylaan 59
1077 XW Amsterdam
Postbus 79092
1070 NC Amsterdam

Phone number 0800 5065
www.zuidas.nl

Routedescription on www.zuidas.nl.

Most activities will take place during the day, between 7:00 am and 7:00 pm. Some work will continue into the evenings and nights. As these activities consist of demolishing a platform, breaking up a metro track, sawing, pouring concrete and cutting rails, you may well be able to hear us at work.

No metro 52 (Noord/Zuidlijn)

During this seven-day period, metro 52 will not operate to or from Amsterdam Zuid station. It will start and terminate at Europaplein, which is a 450-metre walk from RAI station. Here, you can transfer to other metro lines that will keep running to and from Amsterdam Zuid station. Shuttle buses will run between stations Europaplein and Amsterdam Zuid. Metro lines 50 and 51 will operate according to their normal timetable.

22 July (10:00 pm) to 3 August (5:00 am)

Noise

During these eleven days, we will work 24/7. The activities consist of removing the A10, a platform and metro track, sawing, pouring concrete and cutting rails, so you may well be able to hear us at work. For four days from Sunday 24 July we will be placing sheet piles into the ground by means of vibration; this will be done between 7:00 am and 7:00 pm and can be a nuisance to you due to noise as well as vibrations. To minimise the inconvenience, we will be pre-drilling the soil beforehand. If there are any unforeseen events, such as really bad weather or malfunctioning equipment, we may have to continue into the evenings or possibly finish the work on Thursday 28 July.

A10 Zuid closed in the direction of A1 (Hengelo) and A2 (Utrecht), fewer trains

During this eleven-day period, the A4 and the A10 Zuid will be closed in one direction, from junction Badhoevedorp to access route S109 RAI. Road users should allow up to one hour's additional travel time. Traffic will be redirected via the A5 and the A9. Traffic in the direction of Schiphol can use the A10 Zuid inner ring road as at any other time. Amsterdam Zuid station will remain accessible by train, albeit according to an adjusted timetable.

Congested roads

Due to the motorway closures, we expect more congestion on the surrounding urban roads. The supply and removal of materials will also take place via these routes.

How will this affect your travel?

During the activities – or in fact, as of now – you can ask 'Ask&GO Zuidasdok' any questions about the impact on your travel or any possible disruptions. They can be reached 24/7 via Whatsapp (085-0659091) or via www.askandgo.nl.

More information?

The construction activities can be followed live via the webcams on www.zuidasdok.nl and you can contact The Amsterdam Zuidas Information Centre 24/7 with any questions and complaints (0800-5065 and contact@zuidas.nl).

Kind regards,

Paul Kamermans

Stakeholder Manager Zuidasdok
