To the residents and business owners in the Amsterdam Zuid station area.

Dear resident, business owner or other interested party,

We would like to inform you about construction works that will be taking place in the coming period. These works are part of Zuidasdok, which involves the widening and tunneling of the A10 Zuid and the complete redevelopment of Amsterdam Zuid station.

Date

22 augustus 2022

In September and October, we will continue construction work on the new passageway underneath the station, and we will prepare for the placement of the roof sections during the Ascension weekend in 2023. The work will take place on the construction site between the tracks, directly west of the station.

*29 August to 9 September & Monday 26 to [Thursday] 29 September*

During these days, we will remove a number of old sheet piles that hinder the construction work. This will happen between 7:00 am and 7:00 pm. In some cases, we may have to extract the sheet piles by means of vibration.

*10 and 11 September*

During this weekend, the new sheet piles will be placed, using vibration. Although we will keep working around the clock, we will limit any vibration activities to within the 7:00 am to 7:00 pm time period, because this work produces the most noise. To limit the inconvenience, we will be pre-drilling the soil beforehand. In the case of unforeseen events, such as really bad weather or malfunctioning equipment, we will continue to work into the evening.

In October, we will again insert piles and sheet piles into the ground, for the foundations of the station. This will happen on weekdays, within the 7:00 am to 7:00 pm.

**More information?**

You can contact The Amsterdam Zuidas Information Centre 24/7 with any questions and complaints (0800-5065 and [contact@zuidas.nl](mailto:contact@zuidas.nl)).

Kind regards,

**Paul Kamermans**
