building activities Zuidasdok
during the Whitsun weekend

Pagina 1 van 2

Dear resident, business owner or other interested party,

We would like to inform you about building activities that will take place during Whitsun weekend from Friday 29 May to Tuesday 2 June. These activities are being carried out as part of the Zuidasdok project, which includes the widening and tunnelling of the A10 Zuid as well as the complete renewal of Amsterdam Zuid railway station.

What do the activities consist of?

During the Whitsun weekend, the construction consortium ZuidPlus will be working just west of Amsterdam Zuid railway station, in between the metro and train tracks. ZuidPlus will remove the last remaining part of the tunnel that was used by the discontinued metro line 51. They will also add reinforcement steel and concrete to the 100 foundation piles that were put in place as the foundation for the roof of the future additional passageway, the Brittenpassage. To be able to do this, some tracks and platforms have to be removed.

What do the activities mean for you?

Noise

ZuidPlus will use a hydraulic demolition hammer for the demolition of the roof of the metro tunnel. This will be audible in the surrounding area. To minimise the inconvenience, the demolition hammer will only be used on the evening of 29 May, up to 11pm. The activities that generate less noise are planned for the days and nights that follow. And to minimise any nuisance caused by dust, we will sprinkle the demolition area with water.

Fewer metros and trains, A10 Zuid remains open

The A10 Zuid will remain open to cars. You can also keep using the metro and train, but these will operate on a modified timetable (please consult the NS journey planner, gvb.nl or 9292.nl). From

www.zuidas.nl

Een routebeschrijving vindt u op www.zuidas.nl.

Thursday 28 May 10pm until Tuesday 2 June 5am, the station entry on the Parnassusweg will be closed.

Trucks

In the run-up to this weekend, trucks will be transporting building materials to two storage locations near the station. During the activities, trucks will be constantly coming and going with materials, rubble and sand. The map shows which route the trucks will use.

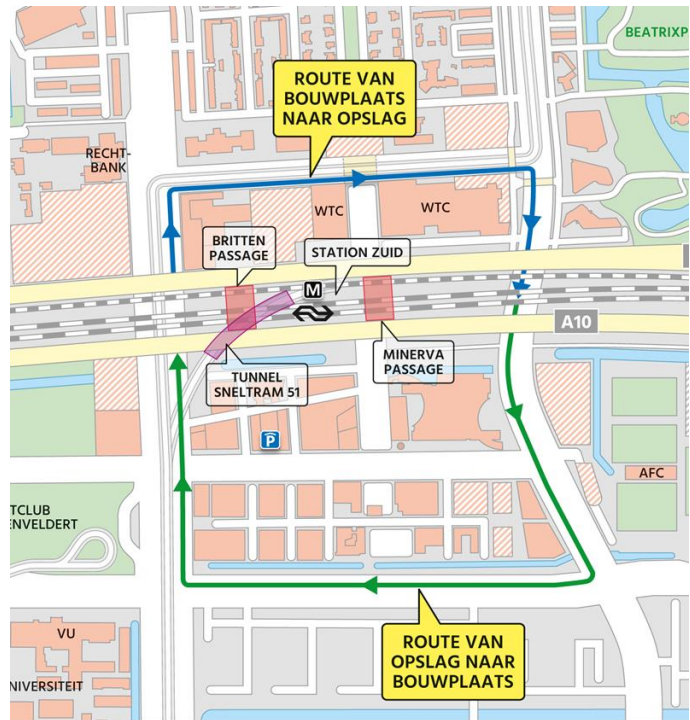

Closure of Parnassusweg

Because of the building traffic, we are forced to close the Parnassusweg in the direction of the city centre for all other traffic:

- during the night of Wednesday 27 May / Thursday 28 May between 1am and 5am
- from Thursday 28 May 10pm to Tuesday 2 June 5am
- during the night of Tuesday 2 June / Wednesday 3 June between 1am to 5am.

The closure of Parnassusweg only applies to the section between Mahlerlaan and Strawinskylaan.

Cars will be diverted via De Boelelaan, Beethovenstraat and Strawinskylaan. Cyclists and pedestrians will be redirected via the western side of Parnassusweg. Cyclists and pedestrians will be further inconvenienced on Friday 29 May by obstructions related to the construction of the new law courts. Traffic coordinators will be on-site to guide the flow of traffic.

More information?

We can imagine that you may need an online presentation or further clarification by telephone. If you let us know via contact@zuidas.nl, then someone from the project team will get in touch with you. You can reach the Amsterdam Zuidas Information Centre 24/7 for questions and complaints, on 0800-5065 and via contact@zuidas.nl. And stay connected via Zuidas.nl, Facebook ([facebook.com/zuidas](https://www.facebook.com/zuidas)) and Twitter ([@zuidasamsterdam](https://twitter.com/zuidasamsterdam)) for the latest news.

Webcam

The building activities over the Whitsun weekend can be followed live via our webcam:
