Dear resident, business owner or other interested party,

In September and October last year, you were invited to share your thoughts and ideas on the temporary layout for plots K and L2, as well as the space surrounding these plots, via the online tool Swipocratie (see the map at the bottom of this letter). As these plots will only be built on from 2027 (K) and 2029 (L2) at the earliest, we are keen to apply an attractive temporary layout to this space, so that the neighbourhood can benefit from this over the years before construction starts. The main preference expressed by the Swipocratie participants was for greenery, but room for sports and recreation were also mentioned. We have now created two draft designs on the basis of these results, which we would like to present to you. For this purpose, we will be organising a meeting on:

**Date: Tuesday 23 April 2024**  
**Time: 7:00 – 8:30 pm**  
**Location: Dynamo Veluwe 20**  
**20 Veluwelaan, 1079 RA Amsterdam**

During this meeting, we will be available to explain how we decided on the draft designs, and we will give you ample opportunity to ask questions and share further thoughts. There is no plenary session; you can just walk in between 7:00 and 8:30 pm.

We look forward to welcoming you.

#### **Next steps**

The reactions we receive from the neighbourhood will be taken to the next stage, where the proposals we presented will be worked into a detailed definitive design. We expect this will be done before the summer holidays. We will inform you about our progress in due time. The intention is to implement the temporary layout before the end of the year.
