Date: 26 October 2026
Subject: **18 November 2026 – Amstel junction Information market**

Dear resident, business owner or other interested party,

We would like to invite you to an information market on Wednesday 18 November. During this meeting, we would like to bring you up to date on the latest developments and plans for the Amstel motorway junction. This is a great opportunity for you to learn more about it and ask any questions you may have.

**Meeting details**
During the information market, we will review the progress of the redevelopment, current plans and other important points with regards to the Amstel junction. Our team will be ready to welcome on the Rosarium Amstelpark 1, Europaboulevard, 1083 HZ AMSTERDAM.. You do not need to register in advance.
- **Slot 1**: 18 November from 12.30 pm to 1:30 pm
- **Slot 2:** 18 November from 6:00 pm to 7:30 pm

**What we will do at Amstel junction**
We are working to improve traffic flow and safety on the A10 Zuid. The motorway will be widened, and local traffic will be separated from through traffic by creating parallel carriageways.
- We are building 23 new viaducts;
- We will construct new connecting lanes;
- The existing southernmost Rozenoord-bridge will be demolished and replaced;
- Two new Rozenburg-bridges will be added across the Amstel river;
- Noise barriers will be placed;
- The local road network will be modified in several places.

In addition, we will move the current bicycle lane on the southern Rozenoord-bridge to the additional bridge that will be built specifically to accommodate the parallel traffic lane. Ouderkerkerdijk will become a bicycle-priority street between the Amstel and the police academy. And finally, Europaboulevard will be modified so that it flows neatly into the new tunnel. In other words, plenty of work to get on with! The reconstruction of Amstel junction will take about nine years and will commence in 2028.

**Getting in touch**
Would you like to know more? Or do you have questions or complaints? The Zuidas-Zuidasdok Information Centre, located in the WTC building (59 Strawinskylaan, ground floor), is open every Monday to Thursday between 10:00 am and 4:00 pm. You can also contact us 24/7 by telephone on 0800 – 5065, or send us a message via www.zuidas.nl/contact.
.
Kind regards,
Alexander de Baar, Stakeholder Manager Zuidasdok
Zuidasdok is a co-operation between Rijkswaterstaat, ProRail and the City of Amsterdam.

Zuidasdok is the largest infrastructural project in the Netherlands. The A10 Zuid will be widened between the junctions Nieuwe Meer and Amstel. Through traffic will be separated from local traffic, and the number of lanes will be increased from eight to twelve in each direction. In the heart of the Zuidas district, the A10 will be routed through a tunnel. These innovations will improve the flow of traffic and thereby the accessibility of the northern Randstad, the surrounding region and the City of Amsterdam.
