Datum:

14 November 2023

Dear resident, business owner or other interested party,

In May 2023, work on the construction of the 'Kunstbrug' across de Boelegracht was started. Unfortunately, the activities had to be suspended in the summer, due to unforeseen circumstances that arose after the foundations had been laid. Further surveys were necessary before the remaining work could be carried out. In this letter, you will read more about the updated plans for the building work.

Reasons for the activities

The Kunstbrug is a gift from the Development Combination Zuidschans, which has realised several homes in your neighbourhood in recent years. To place the Kunstbrug, an abutment must be created to support the bridge on the southern side of the canal. On the northern side, an abutment had already been constructed previously.

Building works and planning

In the meantime, work on the southern abutment has been resumed. Over the coming months, the following activities will be carried out:

- restoration of the embankment protections
- applying concrete and masonry onto the foundation
- tidying up the terrain and constructing a connection to the footpath
- planting vegetation

The work will mostly be carried out on weekdays between 7:00 am and 4:00 pm. Occasionally, we may have to work outside of these hours. We will only do this if absolutely necessary.

We expect to complete the work on the abutment by the end of February 2024. At that point, the bridge can be placed. This is due to happen in May 2024.

Questions and more information

Do you have any questions relating to this letter? Then you can reach us via www.zuidas.nl/contact or by telephone: 0800-5065. Our Information Centre in the WTC building (59 Strawinskylaan) is also open every Monday to Thursday between 10:00 am and 4:00 pm. Via our website, you can register for the Zuidas newsletter and sign up for the monthly guided tours.

Kind regards,

Thomas Bokeloh
