Dear local resident,

A lot of building activities are being carried out in the Strawinsky district of Zuidas, the area between Amsterdam Zuid station and Prinses Irenestraat. Building project PI59 is in progress and the construction of Strawinskyhuis and WTC Tower Ten will be completed this year. Later on, the attention will turn to the public spaces. To bring you up to date on these and other planned activities, we are organising an information meeting, on Monday 3 July. During this meeting, we will also present the preliminary design for the pocket park at PI59. The details of the meeting:

**Date:** Monday 3 July 2023  
**Time:** 6:00 to 8:00 pm  
**Location:** Thomaskerk, 36 Prinses Irenestraat

The evening will be set up as a walk-in meeting, there is no plenary session. You are welcome to join us anytime between 6:00 and 8:00 pm. There will be several 'stalls' where local council staff and the contractors and developers working in this area will provide information on each of the projects. Information on the work on public spaces and Zuidasdok will also be available.

#### **Pocket Park PI59**

The roof of the parking garage at PI59 and the alley running alongside it (between Prinses Irenestraat and Strawinskyhuid) will be turned into a public pocket park for the neighbourhood. We used the online tool Swipocratie twice to gauge the neighbourhood's views on the desired spatial lay-out. By 'swiping', people could express they would and wouldn't like to see at this location. About 800 people participated, and on the basis of their input, we have created a preliminary design for the pocket park. You can take a look at this design during the walk-in meeting, and we'd like to hear what you think of it. The responses we receive will be used to work out the details for the final design.
